1. Scope

This Policy applies to all types of work including contract, commercial and residential drainage projects and any other project undertaken by Centre Line Civil.

2. Purpose

Centre Line Civil is committed to conducting its activities in a manner that demonstrates responsibility for protection of public health and the environment. Management acknowledges and accepts its responsibilities for environmental preservation and will provide sufficient, competent resources and effective systems at all levels of the organisation to fulfil this commitment.

3. Policy

This policy sets out Centre Line Civil's overarching commitments and requirements to conserving natural resources and providing effective preservation of the environment. Centre Line Civil is dedicated to being an environmentally responsible member of the community and believes environmental management is an integral core value of its business.

Centre Line Civil Limited complies with legislation, standards, codes of practice and industry best practice.

4. Prevention of Pollution and Resource Conservation

- We are committed to the prevention of pollution and to conducting all our activities in a manner that minimises negative impacts on the environment.
- We will reduce, where practicable, the consumption of resources and maximise the recycling and reuse of materials to reduce waste generation.

5. Regulatory Compliance

- We are committed to compliance with all environmental laws and regulations that pertain to our operations, products and services.
- When appropriate, we will establish and comply with standards of our own, which may go beyond our legal responsibilities.

6. Continual Improvement

- We are committed to sound environmental management practices that allow for continual improvement.
- We will set objectives and targets, where necessary, that relate to the significant environmental aspects of our activities.
- We will promote the effective use of innovative environmental technologies and practices, where practicable, to maintain our high standard of environmental awareness.
- We will make purchasing decisions that are congruent with our commitment to reduce our environmental impact and to ensure continual improvement.

7. Employees

- We will promote respect for the environment in the workplace and will ensure that our employees have the awareness, skills and knowledge to carry out their work in an environmentally responsible manner.
- We will encourage our employees to be aware of the potential environmental consequences of their actions at all times and take care to minimise any adverse consequences.
- We will educate our employees in the importance of adhering to our environmental policies and procedures while carrying out their activities.
- We will foster a work environment in which employees are encouraged to promptly report and raise environmental issues.
- We will correct deficiencies and take actions to prevent incidents from occurring.

8. Business Integration

- We will integrate environmental considerations into our business activities and are committed to the development of work processes in an environmentally conscious manner.

9. Stakeholders

- We will work with our clients and stakeholders to address environmental concerns related to our operations.
- We will work with our clients and stakeholders to help them achieve their environmental goals and objectives.
- We will encourage our stakeholders to enhance their environmental performance where necessary.

10. Reference Documents

This policy should be read and used in conjunction with the following:

HS & E	Health, Safety and Environment Management Plan
HS & E	Health and Safety Policy
Legislation	Resource Management Act 1991
